Admission Policy of Gunma University Graduate School

Admission policy
~ We seek the following applicants ~
We seek applicants who have academic skills and capabilities required by the graduate schools or institutes according to their programs or specialties. Applicants should be motivated to contribute to the development of society through research and practice.

Admission Policy of Gunma University The Graduate School of Health Sciences (Master’s Program)

~ Our Master’s Program is recruiting for the following applicants. ~

<Objectives of human resource development>
(1) Persons who understand holistic medicine and have sophisticated expertise and skills,
(2) Persons who have the basic literacy to practice education and researches in the specialized field,
(3) Persons who can engage in community-based activities as health care/welfare professionals,
(4) Persons who can engage in international health care and welfare activities

<Capabilities and qualities required for enrolled students>
(1) Persons with the desire to make a contribution to society in the health care and welfare fields.
(2) Persons who enter the subsequent doctoral program (Ph.D.) of the Health Sciences course and aspire to be educators/researchers

<Screening method>
We comprehensively evaluate the results of essay-type test, foreign language test and oral test, and the academic transcript of the applicant and the application documents such as the outline of his/her preferred study. The essay-type test measures his/her general knowledge and thinking power on health science and medical science. The foreign language test measures his/her reading comprehension of the English literature on health science and medical science. We also conduct entrance examinations for working people and international students in addition to a general entrance examination.

Note 1 Applicants can use any one of English-Japanese dictionary, English-English dictionary or other similar dictionary (excluding electronic dictionary and technical dictionary) at the foreign language (English) test.

Note 2 The oral test asks specialized knowledge, research capability and study plan of each applicant individually to evaluate the adequacy and motivation as researcher or professional with a high level of expertise.

Note 3 Applicants of International Students can choose the essay test with questions and answers in English. They can choose the questions and answers in English also for the foreign language (English) test, since the test aims to measure an applicant’s reading comprehension of the English literature on health science and medical science. Applicants who want to take an exam in English need to contact Admissions Section, Educational Affairs Office, TEL. +81-27-220-7797 E-mail: kk-mgakumu5@jimu.gunma-u.ac.jp “by 17:00 on Friday November 30, 2018. We may ask foreign applicants some questions about Japanese proficiency at the oral examination.

<International Student Entrance Exam>

Note 1 Foreign language (English) examination

(1) For applicants who take the international student entrance examination, a written test of foreign language (English) can be substituted by submitting any score of TOEFL-PBT (paper-based test), TOEFL-iBT (internet-based test), TOEIC Listening & Reading Test (open test), or IELTS (academic module). The score of TOEFL-ITP (TOEFL Institutional Testing Program) is also subject to evaluation according to the score of TOEFL-PBT.

Applicants who have submitted any one of TOEFL’s official score report, score card, official certificate of TOEIC Listening & Reading Test (open test) or IELTS (academic module) at the time of application can take the foreign language (English) test also, if they wish. In that case, the better result will be used for evaluation.

The score of TOEFL, TOEIC Listening & Reading Test (open test) or IELTS (academic module) issued after February 2016 (within three years counting backward from the month of entrance examination) shall be valid. You need to submit the original of the score report, score card or official certificate. The copy is not acceptable. The original shall be returned with the examination admission ticket.

(2) Applicants can use any one of English-Japanese dictionary, English-English dictionary or other similar dictionary (excluding electronic dictionary and technical dictionary) at the foreign language (English) test.

Note 2 Oral examination

(1) For applicants with difficulty in coming to Japan for oral examination, we may use the results of the interview on the Internet for evaluation. However, the above shall be applied only in the case where the applicants have submitted any score of TOEFL-PBT (paper-based test), TOEFL-iBT (Internet-based test), TOEIC Listening & Reading Test (open test), or IELTS (academic module).

(2) In principal, the oral examination of the international student entrance examination is held in English. Subsequently, we may ask some questions about Japanese proficiency.
The examination is held on the same day with the general entrance examination. However, the schedule for the interview on the Internet is determined individually.

Contact the supervisor you want to receive guidance (see pages 37-40) prior to the application and make sure to consult him/her on your research plan after admission. Note that most of the lectures are held in Japanese.

Not acceptable.

15 Special measures for educational method
We offer the day and evening courses system for students who have passed the entrance examination for working people, and those in employment who have passed the general entrance examination, if they wish.

Under the system, education is provided at night (from 18:00 to 21:30), on Saturdays, Sundays and national holidays and during summer or other vacation period.

16 System for long-term degree completion
The system allows particular students such as students in employment who have difficulty completing the regular course within the formally-stated period of study (2 years for master’s course) to extend the study period so that they can take and complete the courses systematically over the said period.

Students who want to use the system need to consult with the supervisor and apply within the application period.
(1) Eligible students
1) Students in employment (or to be employed) who have difficulty sparing time to study or to take lessons due to business assignment,
2) Students who have difficulty sparing time to study or to take lessons due to household duties, childcare and/or nursing care,
3) Besides these, students who have reasons the Graduate School of Health Sciences approves for application of the said system.
(2) Long-term study period
The period adding one year or two years to the formally-stated period of study (but the school days should not exceed twice as long as the said period of study)
(3) Tuition fee
The annual tuition fee for the long-term study period is the amount obtained by multiplying the number of years equivalent to the number of the formally-stated period of study (two years) to the prescribed annual tuition fee (JPY 535,800) and then being divided by the number of course term given for a long-term student.
(4) Application period
From Thursday, February 28 to Friday, March 8, 2019
(5) Documents to be submitted
1) Application form for the system for long-term degree completion
2) Curriculum/study plan under the system for long-term degree completion
3) Certificate of enrollment required for a student in employment
4) Other documents required by the Graduate School of Health Sciences
   Refer to the guideline enclosed with the letter of acceptance for details.
(6) Inquiries:
   Graduate Student Section, Educational Affairs Office, Showa Campus, Gunma University
   TEL. +81-27-220-7804

17 Information disclosure about entrance examination
The information about entrance examination is disclosed in the following way.
(1) Disclosure on the website
   The numbers of applicants, examinees, successful examinees and enrolled students, the number
   of enrolled students by gender and the highest total score of enrolled students in essay and foreign
   language tests.
   When disclosure of the highest total score may lead to identification of a specific individual, the
   information will not be provided.
   Release date: Wednesday, May 1, 2019
(2) Total scores of an examinee’s essay and foreign language tests are disclosed on demand from the
   examinee in writing
   Disclosure application period: From Wednesday, May 1 to Friday, May 31, 2019
(3) Inquiries:
   Admissions Section, Educational Affairs Office, Administration Division, Showa Campus of Gunma
   University
   TEL. +81-27-220-7797

18 Protection of the Personal Information about the Applicants for Admission etc.
Gunma University will acquire the personal information about the applicants, etc. through the
application documents submitted and the personal information about the examinees by carrying
out the entrance examination, but the personal information described above will be used only for
the following operations based on “Act on the Protection of Personal Information Held by National
University Corporation Gunma University”.
(1) For the operations (including subordinate operation, such as statistical processing) concerning the
   selection of newly enrolled students.
(2) For the operations concerning the student advising, the student support, and the tuition fee
   collection after enrollment as the data on the newly enrolled student in the case of a person who
   completes the admission procedures.
   In addition, our university may outsource some operations above to an external company after
   making the contract concerning the appropriate handling of personal information.

How to make a Payment of Examination Fee at Convenience Store or by Credit Card

You can pay the examination fee at a nearby Convenience Store (Lawson, Ministop, FamilyMart, Seven-Eleven, Circle K or Sunkus) by cash, or by a credit card.

1 Online Application

Visit the payment website from your computer or cell phone at:

https://e-shiharai.net/

- If you can not correct or cancel anything once your credit card payment has been made. Please check all your information carefully before you confirm the application.
- If you input the wrong information while trying to obtain your application number, please start again from the beginning and make your payment.

If you fail to pay the fee by the due date which you will be notified after completing the online application, all the information you had input will be canceled automatically.

2 Convenience Store Payment

- Make the payment at the register.
- Receive an Application Fee Statement. Detach the Certificate of Payment (receipt) portion.

Tell the counter staff that you want to make an "Internet charge". Then provide your [Application Number].

A multifunction copier cannot be used to make payment.

3 Application

Paying at Convenience Store

Attach the receipt portion to "The Certificate of Payment" in the designated location.

Paying by Credit Card

After making your payment, please make sure you have access to a printer with paper (A4).

Access "申請結果通知書 (Application Results)" at e-shiharai.net.

- If your credit card company is not accepted.
- Please contact your credit card company directly if your card is not accepted.

- If you are paying at a convenience store, please be sure to complete your web application at least 30min before the end of the payment period date.

In addition, the steps for using information terminals at various convenience stores and payment deadlines for credit card payments are all mentioned in your application guidelines.

2 Course for Certified Nurse Specialist (CNS)

Our graduate school is a certified educational institution which students can get qualification in the fields of cancer nursing, gerontological nursing, chronic care nursing and maternal nursing to take the CNS test.

In the CNS course, students need to complete six to ten credits in the clinical training. They also need to complete thirty-eight credits in cancer nursing and gerontological nursing.

See the website of the Japanese Nursing Association (http://www.nurse.or.jp) for CNS.

(Note) A person who desires to take this course should consult his/her Academic Adviser and submit the application.

3 The Cancer Professionals Training Course

This training has three courses (1. Cancer Genomic Medicine and Nursing, 2. Pediatric, Adolescents and Young Adults (AYAs), and Rare Cancer Nursing Science, 3. Living with Cancer and Quality of Life in Cancer Nursing Science) to cultivate human resources specialized cancer medical services meeting multiple needs.

(Note) A person who desires to take the course should consult with Academic Advisers of Cancer or Pediatric Nursing prior to application.

4 Clinical Research Coordinator (CRC) administrator course

The course aims to educate “clinical research professionals” with advanced knowledge and skills required for clinical researches to implement and lead a high-quality clinical research. Students who want to take the course need to consult with the advisor.

5 Community-based nursing leader course

The course aims to educate students to acquire leadership skills to provide seamless care among the community, home, and hospital settings. Upon graduation, students are expected to be community-based nursing leaders with “a home care mind” in response to today’s social requirements.

(Note) A person who desires to take this course should consult his/her Academic Adviser and submit the application.

* See the brochure of our Graduate School of Health Sciences for requirements for completion, career options of those who complete graduate school and subjects.

One of my research interests is the effects of pair bonding on psychological disorders and neurological diseases. We have been analyzing some kinds of disease models of monogamous prairie voles using ethological, pharmacological, and immunohistochemical techniques. Another research interest is molecular basis underlying intellectual disability. We have been investigating the functions of motopsin, the loss of which function causes severe intellectual disability in human, using genetically modified mice and cell biological techniques.
