15 Special measures for educational method
We offer the day and evening courses system for students who have passed the entrance examination for working people, and those in employment who have passed the general entrance examination, if they wish.

Under the system, education is provided at night (from 6:00 p.m. to 9:10 p.m.), on Saturdays, Sundays and national holidays and during summer or other vacation period.

16 System for long-term degree completion
The system allows particular students who have difficulty completing the regular course within the formally-stated period of study (2 years for master’s course) to extend the study period so that they can take and complete the courses systematically over the said period.

Students who would like to use the system need to consult with the supervisor and apply within the application period.

The annual tuition fee for the long-term study period is the amount obtained by multiplying the number of years equivalent to the number of the formally-stated period of study (two years) to the prescribed annual tuition fee (JPY 535,800) and then being divided by the number of course term given for a long-term student.

(4) Application period
From February 22 (Wed.) to March 6 (Mon.), 2023.

(5) Documents to be submitted
1) Application form for the system for long-term degree completion
